INEX 1000

For installation in INEX Systems

- Pure sine wave inverter module
- Hot swappable replacement in shelf
- DSP design for higher system reliability
- Smart fan speed control
- N+1 redundancy system, load sharing difference <5%
- High power density
- Wide operation temperature range, -20 to 70°C (-4 to 158°F)

Alpha® Inverter Module INEX 1000 provides pure sine wave power to critical loads in telecom power applications.

It features a wide operating temperature range, -20 to 70°C (-4 to 158°F) for operations in harsh environments. The compact size delivers 1500VA/1200W of AC power in limited space. The modular design allows gradually incrementing the system capacity as the load demands increase.
